

# The PowerAttack innovation continues!

Moving Loads „CordLess“ with batteries.

The name PowerCat has been challenged by a leading construction equipment manufacturer. As a result a new name has been created – PowerAttack. A new name but still the same innovative products brought to you by Klaus J. Scholpp.

## PowerAttack

® Made in Germany

### The Load Mover.

The innovative idea to move loads on passive, unpowered skates up to 25 tons instead of a forklift-truck.

# Moving loads the easy way with PowerAttack.

## The idea...

## Applied mechanics!

Moving loads with “lever” and “traction”. PowerAttack is easy to transport and handle and is hooked up to the steerable skate with a provided adaptor... and then you go! Moving machines up to 25 tons, depending on surface, quality of skates etc. Watch the movie on the website!

MTC 25 CC Cordless

MTC 25 C Compact

### PowerAttack MTC 25 C – Compact

With 2 electronically controlled variable speeds from 0-5 yards/min or 0-12 yards/min in forward - backward action, with 240 V or 110 V available, Compact length of 1650 mm / 65 in, 2 stage telescoping each 250 mm / 10 in to a total of 2150 mm / 85 in, weight 50 kg / 110 lbs.

All PowerAttacks come with a 2 wheel aux trolley for easy transport to the site. Once PowerAttack is hooked up this trolley folds and attaches under the main tube while working – held by magnet!

### PowerAttack MTC 25 CC – CordLess Compact

Powered by a 48V Synchronous motor with 1KW Power output, smooth variable speed control from 0-22 yards/min and operation with forward-backward function and Emergency-Stop. Compact length of 1650 mm / 65 in, 2 stage telescoping each 250 mm / 10 in to a total of 2150 mm / 85 in, weight 75 kg / 165 lbs.

1 Charge unit and 2 BatteryPacks are standard delivery with each 10 Ah Power output – with latest Lithium-Polymer technology – no memory-effect. Typical battery life under working conditions 1-1,5 hrs. Charge time per battery 4 hrs.

3 PowerAttacks move a 75 to Condenser

PowerAttack moves 18t Dumper on Transport Platform

PowerAttack moves a 15t pump
